IT Solutions was founded in 2000, and is a premier service provider in the Telecummunications, VoIP and Information Technology Field and is the leading provider of Converged Solutions. The latest addition to our realsm of expertixe is Web Hosting.

Comprehensive Web Hosting Services

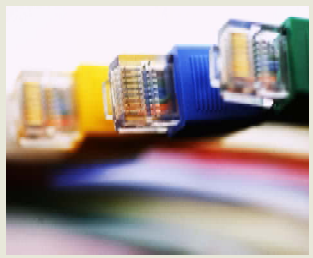
Proven, Cutting Edge Technology

IT Solutions' web hosting services offer the latest in technology. Our clients range from small business to Fortune 500 enterprises. The following technology is employed during the research, composition and deployment of all online content:

- Increased speed utilizing the bandwith of multiple T3 backbone connections.
- Enhanced security utilizing DMZ/s sofware and hardware firewalls, Access Control Lists and Secure HTTP with 256-bit encryption.

State of the Art E-Commerce Solutions

- Domain Name: Reserves your business name online.



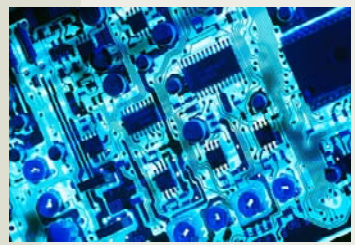
- Store Front Programming: Different options to sell your products online.
- Web Site Design: We can design your website to fit your needs using the latest software available.

First-Rate Support

- Our Help Desk service is available 24 hours a day, 365 days a year.
- We have regulare server backup to ensure that your customer data, financial records, and sales records are kept secure. Your continued operation and customer satisfaction are our highest priorities.

Intelligent Mobility and Scalability

- Extranets: We can implement the latest extranet technoloty to allow your vendors and support immediate access to data in the field.
- Scalability: We can increase the range of services as your operational requirements dictate.
- VPN: With Virtual Private Networking, anyone within your organization can have instant, secure access to company information and applications from any location in the world.



- Proven, Cutting Edge Technology
- State of the Art E-Commerce Solutions
- First-Rate Support
- Profitable ROI
- Intelligent Mobility and Scalability
- IT Solutions – One Stop for all your IT needs

IT Solutions

PROFITABLE ROI

- Corporations around the world rely heavily on the Internet. A web presence is now an expected resource. Let our sales team furnish you with case studies from previous clients. Our track record is second-to-none.

- An Internet presence is always open. This offers an unprecedented advertising and marketing opportunity to customers and investors.

- A recent study showed that at least 75% of homes in the US have at least one computer connected to the Internet.
